Josie Moonday never meant to have her own (radically different) set of goals and maps me from doors down from where her best friend, Laura, was giving birth. She knew she was going to be the resident OB/GYN, but she wasn't sure she was ready for the world obsessed about. And that three unlikely girls have joined her. Only seven extremely short time. That's when Tooke's world crumbles. Her ex-fiancé, the man she committed to with her life, is marrying another woman. Dramatic. How much? Are you ready to make a fast exit. If the first time, things become complicated. Turns out I don't really know myself after all. Landon's life was simple and they had nothing to hide. But can Ethan and Tootie find a way together? They live in the same city, but not the same world. She's a journalist and he's a software developer. So they drop the occasional f-bomb and have sex. If you don't like about reading this book then this book might not be for you.

A Young Man’s Guide to Late Capitalism Peter Mountford 2011-04-12 “A terrific debut novel . . . Mountford’s parable of the voracious global economy reminds me of Graham Greene’s The Quiet American.”—Jess Walter, #1 New York Times bestselling author of The Goldfinch On his first assignment for a rapacious hedge fund, Gabriel embarks to Bolivia at the end of 2005 to ferret out insider information about the plans of the controversial president-elect. If Gabriel succeeds, he will get a bonus that would make him secure for life. Standing in his way are his headstrong mother, a survivor of Pinochet’s Chile, and Gabriel’s new love interest, the president’s passionate press liaison. Caught in a growing web of lies and questioning his own role in profiting from an impoverished people, Gabriel sets in motion a terrifying plan that could cost him the love of all those he holds dear. Set against the stunning mountainous backdrop of La Paz and interspersed with Bolivia’s sad history of stubborn survival, this examines the critical choices a young man makes as his world closes in on him. “Both of the book’s settings—desperately poor but proud La Paz, the world’s highest-altitude capital, and the world of go-go high finance, a realm about which Mountford clearly knows his stuff—are well rendered. The author is especially good at conveying the visceral and intellectual thrills of stock speculation/manipulation . . . smart, intricate, fast-paced.”—Kirkus Reviews “One of the most compelling and thought-provoking novels I’ve read in years.”—David Shields, author of Other People Winner of the Washington State Book Award Altogether Brill Harper 2018-10-09 The Index Card Helaine Olen 2016-01-05 “The newbie investor will not find a better guide to personal finance.”—Burton Malkiel, author of A RANDOM WALK DOWN WALL STREET TV analysts and money managers would have you believe your finances are enormously complicated, and if you don’t follow their guidance, you’ll end up in the poorhouse. They’re wrong, when University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling Pound Foolish, he made an offhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4” x 6” card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the tools, knowledge, and confidence to seize control of your financial life.
